IN THE CIRCUIT COURT OF THE FIRST CIRCUIT, TERRITORY OF HAWAII—HOLDING TERMS AT HONOLULU, COUNTY OF OAHU.

Gustave Rose and Helene Kruger v. Rosina Rose, Bertha Rumbel and Maud Kaikilani Chapman (a minor).

Term, Summons (stamps).

The Territory of Hawaii: To the High Sheriff of the Territory of Hawaii, or his Deputy; the Sheriff of the County of Oahu, or his Deputy: You are commanded to summon Rosina Rose, Bertha Rumbel and Maud Kaikilani Chapman (a minor), defendants, in case they shall file written answer within twenty days after service thereof, to be and appear before the said Circuit Court at the term thereof pending immediately after the expiration of twenty days after service hereof, provided, however, if no term be pending at such time, then to be and appear before the said Circuit Court at the next succeeding term thereof, to wit, the January term thereof, to be holden at Honolulu, County of Oahu, on Monday, the 13th day of January (1908) next, at 10 o'clock a. m., to show cause why the claim of Gustave Rose and Helene Kruger, plaintiffs, should not be awarded to them pursuant to the tenor of their annexed complaint. And have you then there this writ with full return of your proceedings thereon.

Witness the Honorable J. T. DE BOLT, First Judge of the Circuit Court of the First Circuit, at Honolulu, Oahu, this 13th day of August, 1907.

I certify the foregoing to be a true, full and faithful copy of the original, and that publication of the same was this day ordered.

HENRY SMITH,

Clerk, Judiciary Department.

Honolulu, August 19, 1907.

SMALL HOPE FOR THE SEWALL

SEATTLE, Wash., November 4.—The report was brought here today by the steamship Combermere that the American ship Arthur Sewall, reported to have gone ashore in the Straits of Magellan, where her crew was reported to have been killed by cannibals, had been sighted off Cape Flattery. Late today the American ship Erskine M. Phelps came into port, and was tied up at pier 5. The Phelps is a sister ship of the Sewall, and the fact that she arrived about the same time the Sewall was said to have been sighted makes it possible that she was mistaken for the overdue collier.

It is seven months since the Sewall was spoken, and even the Pacific Coast Company, which had a cargo of 5000 tons of coal aboard the Sewall, withdrew hope tonight when the Phelps came into port. In every detail she answers the description of the Sewall, and the Combermere's report looks like a mistake tonight.

AN INQUIRY ANSWERED.

A gentleman at Bembe, Rhodesia, writes to inquire where Chamberlain's Cough Remedy can be procured. He says he has learned of the good effects resulting from its use, and as children in that locality are often subject to coughs, he desired to give it a trial. This remedy may be procured from any store or chemist. For coughs, colds and croup there is nothing better, and as it contains no injurious substance it can be given to the smallest child with perfect security. For sale by all dealers. Benson, Smith & Co., agents for Hawaii.

Hawaii's Young People for November makes Thanksgiving Day literature a feature.

MARINE

ARTHUR SEWALL SAFE.

SAN FRANCISCO, November 5.—The British ship Combermere, which arrived Sunday night, reports having spoken the American ship Arthur Sewall November 2 off Cape Flattery. The Arthur Sewall is bound from Philadelphia to Bremerton with a cargo of coal for the United States navy. A derelict sighted off Cape Horn was identified as the Arthur Sewall. Investigation showed that the crew had landed on Noir Island, which is inhabited by a race of belligerent cannibals from whom shipwrecked mariners could expect no mercy. It was supposed that the Sewall survivors had been killed and eaten.

The appearance of the Sewall off Cape Flattery shows a mistake in the identification of the derelict, and the shipping world is now wondering what vessel it was. The description of the derelict, while fitting the Arthur Sewall, also fits the American ship Erskine M. Phelps, Captain Graham, which left Philadelphia 136 days ago also for Bremerton. Both the Phelps and Captain Graham are well known at this port, although it is some years since either ship or skipper was in San Francisco.

MAUNA KEA LAUNCHED.

The new steamer Mauna Kea, built for the L. L. S. N. Co., was launched on November 4, at the Union Iron Works, San Francisco. The vessel was christened by Miss Beatrice Frear, daughter of H. M. Frear, naval architect of the works, and niece of Governor Frear of Hawaii. The Mauna Kea will carry freight and passengers between Hawaiian ports. The new steamer will use liquid fuel and is the largest vessel in the company's fleet. The Mauna Kea is 240 feet long, 36 feet in beam and 15.6 feet deep. She will take the Kinau's present run. Captain Haglund will go himself or appoint some master to go to the Coast to bring her down early next year.

THE CALL OF THE BLOOD IN DEBILITY

Dr. Williams' Pink Pills Will Prevent

Most Cases and Have Cured Even

Those That Stubbornly Resist.

ed Treatment.

There are few cases of general debility that could not have been prevented. There is no hidden cause for its presence nor is it sudden in its attack. Any person who is over-worked, or subject to any great worry or excitement, or undergoes some long-continued strain on the body, is liable to become debilitated unless the blood is kept pure and rich. Such unusual conditions call for more nourishment than the blood can supply and pale-ness, headaches, poor appetite, unrefreshing sleep, backaches, loss of spirits and a general tired-out feeling, which follow, are simply a call for a blood tonic and builder.

Mrs. Lena May Brooks, of Prairie Hall, Macon county, Ill., after several months of suffering finally found the right tonic in Dr. Williams' Pink Pills. She says:

"For several months after the birth of my baby, I suffered terribly from a general breakdown in health. I was in bed for three months and after that was able to be up only part of the time. I was sick all over, being pale, weak and thin. My appetite was gone and my head ached most of the time. Oftentimes there seemed to be a rush of blood to my head and I would faint away. I was very nervous and was not strong enough to do any work."

"As the treatment I was taking did not help me, I began to take Dr. Williams' Pink Pills, which a friend said had helped her. After taking a few boxes, I began to get well rapidly. I continued using them for a time and am now as well and strong as ever."

Dr. Williams' Pink Pills have cured anemia, after-effects of the grip and fevers, rheumatism, indigestion, and nervousness, dizziness, neuralgia, St. Vitus' dance and are of the greatest value even in partial paralysis and locomotor ataxia.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

THAW'S DEFENSE ONE OF INSANITY

NEW YORK, October 31.—Announcement was made today that insanity is to be the plea in the defense of Harry Kendall Thaw, whose second trial for the slaying of Stanford White will begin on December 2 next. Martin W. Littleton, chief counsel for Thaw, is stated, has decided on the course. He is said to be convinced that Thaw is insane and has not adopted this course as merely a theory on which to conduct a successful defense, but because he feels certain of the unsound mental condition of his client.

WALLACH WILL BE HERE WEDNESDAY

Wallach is in Hilo, but will probably return to Honolulu by the Kinau on Saturday. Such is the statement made by Charles Notley.

The supposition seems to be that Wallach wants to be here to be on hand when the Board of Health meets next Wednesday, at which time President Pinkham promises that the whole matter shall be made plain. At which time, also, it is expected that the board's plan for giving Wallach the opportunity he has been asking for to test his remedies will be made public.

Wallach seems to have abandoned his plan for a tour of the islands, in order to get here in time for the meeting Wednesday. He has not gone to any part of the Island of Hawaii except Hilo.

Delegate Kuhio returned from Molokai yesterday morning. He says that he went of his own volition and not with any authority from the board to make arrangements with the people there for the Wallach tests. He says that he heard that there was likely to be trouble there and he went over to quiet it if he could. He says that he was well received by the people, and that they came nearly half way up the hill to meet him, he going into the Settlement over the path.

Charles Notley says that his brother writes him that the Delegate was rather coldly received and that a large number of the people there, himself among the number, would not go to the meeting which was called to listen to what the Delegate had to say.

It seems altogether probable that the Delegate is speaking in an official and not in a personal or specific way when he says that he went to the Settlement without any understanding with the Board of Health, and with no promises or representations to make to the people there. Kuhio had a permit from the President of the board to go into the Settlement, and such permits are not usually granted without the President knowing pretty well what was wanted with them.

President Pinkham had a conference with Kuhio after the return of the latter yesterday morning and he seemed very much pleased with the result of it. However, he would not say anything regarding the matter, insisting that he would make a full and complete and satisfactory statement at the meeting of the board next Wednesday.

There is much to indicate that there is considerable inharmonious in the Board of Health on the Wallach question. Fred Smith did not attend at least two of the "private" meetings of the board. Dr. Wayson has consistently held that the question is not one of whether Wallach is a fake or not, but is one of policy in view of the fact that the lepers are regarded by the law as incurable, but naturally their hopes are aroused by any claim of ability to cure, and they grasp at Wallach's claims as a drowning man grasps at a straw. David Kalanika-lani entertains very much the same opinions, and M. P. Robinson, who in the past has voted against Wallach, is believed now to be willing to accede to the request of the lepers represented in the petition from five hundred and twenty-seven of them. It is not certain, either, that Attorney General Hemenway may not conclude that the request of the lepers ought to be in some way complied with rather than that the board seem to be in the attitude of denying them hope. This leaves only Dr. Baldwin and Fred Smith as pronounced conservatives, with Pinkham an unknown quantity.

The reason assigned by Charles Notley's correspondent from the Settlement for the cold reception alleged to have been given the Delegate, is because the Delegate in the Board of Health, meeting said that Wallach ought to be thrown out of the window, whereas the people at the Settlement think he may prove their savior.

PREVENTING DUSTY ROADS.

Consul T. H. Norton, writing from Chemnitz, says that a Saxon firm has introduced a new road-binding composition called "Apokoin," which has been tried on the macadamized streets of Leipzig and other places with much success. The material is thus described:

It is a mixture of the heavier residual oils obtained in the distillation of coal tar with high boiling hydrocarbons. The method of mixing apparently involves a certain degree of chemical combination, in which phenol and similar constituents play a role. The manufactured material is prepared for use by heating in iron caldrons, identical with those used for asphalt, to temperatures ranging from 212 deg. to 248 deg. F. (100 deg. to 120 deg. C.). It is then sprayed evenly over the surface of a roadway with a special form of apparatus, and under such high pressure that the fluid mass penetrates to a certain distance into the upper layer of dust or dirt. The result is the formation of a compact lustrous black coating, which meets the demands of heavy traffic and is not disintegrated into dust particles. A marked advantage of the new process over the methods hitherto employed for the same purpose, and based upon the use of ordinary tar, is the total absence of odor after the application.—Consular Trade Reports.

The Department of Public Works yesterday awarded the contract for painting doors, window sash, and other portions of the interior of the Capitol to Henry Bertheimann, he being the lowest bidder. His bid was \$250. The other bids were Stanley Steinhens, \$238; J. J. Enos, \$350; E. C. Rowe, \$508.

LOCAL BREVITIES.

(From Wednesday's Advertiser.)
William Stromath, a sailor of the U. S. S. Itouquos, was stabbed in the left breast Monday night by some man who sprang from an alleyway. The police have a suspect in custody.

A cable was received from Governor Frear at San Francisco early yesterday morning, announcing his safe arrival on the Alameda, that vessel making the voyage in five days and sixteen hours.

Superintendent of Public Instruction Rabbitt flew about Oahu on Monday in an auto to inspect schools. He made only brief stops, but is well pleased with what he found. He visited Kaneohe, Waiholo, Hauula, Keolu, the Boys' Industrial School, Kahuku, Wai-ahala, Waihi and Kawaihau.

Correspondence has been going on between Honolulu people and the American Federation of Labor with a view to ascertaining if it is possible to get Hawaii fined for violating Federal immigration laws, if she has so done. It is represented that, according to Attorney General Bonaparte's ruling, the importation of 5000 Portuguese and Spaniards was a violation. The fine would amount to \$5,000,000.

(From Thursday's Advertiser.)
Delegate Kuhio will seek to secure an increase in the pay of jurors in United States courts allowed in the Territory of Hawaii.

The police believe they have gone far toward breaking up a gang composed of Spaniards who have done much to terrorize certain portions of the town. They have arrested about eight of the gang.

Mr. and Mrs. Fred T. P. Waterhouse expect to leave by the Buford for the Straits Settlements and Ceylon. Mr. Waterhouse goes as the special commissioner of the Territory to study the rubber industry.

The merchants of the city have been much worked up over the report that owing to the Alaskan being sent back from San Francisco to the Isthmus, much Christmas merchandise will not reach here before December 20.

It is reported that a heavy northerly swell at Kahului, the heaviest for years, has done some damage to the breakwater there or to a stone protection built out for a distance of a hundred feet from the end of the breakwater.

Harry H. Tomlins, who with Walter R. Pittenger left by the Hiloian about three months ago, has written to friends here. He is now in Medford, Oregon, employed with a firm engaged in monumental and granite works. His statements regarding his reasons for going when he did are wholly creditable to him.

Joaquin Miller, the "Poet of the Sierras," is planning a trip to Japan and China and will probably pass through here.

Acting Collector of Internal Revenue Drake by the mail yesterday received a number of letters regarding his candidacy, all of a very satisfactory nature. Senator Cullum has endorsed him for appointment.

Second Lieutenant Clarence Lynam, U. S. A., was a passenger on the Thomas. His father, Rufus Lynam of Hilo, came here to meet him. He has been for two years in the Philippines. He is now on his way to Fort Mead on special duty.

Yesterday was the fiftieth anniversary of the arrival in Honolulu of F. A. Schaefer. He was then a young man of twenty-one. The Hawaiian Band serenaded him at his Nuuanu residence yesterday morning, and many friends called during the day to offer their congratulations.

A. L. C. Atkins, through whose instrumentality the executive authority for bringing in the Portuguese and Spanish immigrants of the past year, was obtained, says that there need be no fear that the Territory or anyone else will have to pay any fines, or that the American Federation of Labor will seek to cause any difficulty, at least so long as Samuel Gompers is at the head of that organization.

C. J. Cross, who went to Fiji to report on a wireless system connecting the islands of that group, passed through Honolulu, returning to his home in Chicago, by the Aorangi yesterday. He says that he made a report for a system with three stations to begin with, but that it will have to go to the British Home Office for approval. He predicts a service between here and the Coast before very long.

THINK PASSPORTS ARE FORGERIES

OTTAWA, November 3.—The Dominion Government has decided to widen the scope of the investigation which Mackenzie King is conducting on the Pacific Coast. The commission which King now holds is confined to an adjustment of the Japanese claims for damages arising out of the recent riots in Vancouver.

At the first meeting of the Cabinet an order will be passed giving King authority to go into the full question of Japanese immigration. The reason for this is said to be that evidence came out during the recent investigation to show that employment agencies were largely responsible for the great influx of Japanese. It was alleged also that the Japanese were brought to Canada under forged passports. All these points will be fully investigated.

ANTI-HINDU FEELING.

EVERETT, Wash., November 2.—Mill workers and their sympathizers tonight made a demonstration against Hindus employed in the local mills, but the police, warned in advance of the affair, corralled 34 of the Orientals in the city jail for safe keeping.

Late tonight about 200 mill men were gathered on the waterfront near the deserted Hindu quarters. Mayor Jones addressed the mob, advising it to keep within the law. He has wired Governor Meade for authority to call out the militia if necessary to suppress riots, but the police say it will not be necessary. There are about 40 Hindus in the city.

HAPAI AT WORK ON THE BOOKS

Acting Treasurer Hapai began work yesterday afternoon on the books of the Hawaiian Realty and Maturity Company. He was able to spend only about an hour and a half at the work yesterday but will continue it as rapidly as he can. He does not hope to be able to make an absolutely accurate statement from the books because the books have been so crudely kept, to say nothing more. It does not appear that receipts were given to stockholders when they paid their money. Hence there are no stubs from which a statement of receipts can be made up. The payments are supposed to be credited in the monthly column for that purpose, and the day's cash is entered or supposed to be entered on the cash book.

Neither the report made by E. L. Cutting for the grand jury nor the duplicate of it submitted to the Treasurer can be found, though it is probable that one or the other of them will be found by further search.

It is altogether probable that as soon as Acting Treasurer Hapai has completed his auditing and investigating of the accounts so as to give a basis to work on, that the Attorney General will begin proceedings to have the concern thrown into bankruptcy and its affairs wound up and its assets distributed among those entitled to them.

At the office of the company there does not seem to be any flurry or anything out of the ordinary. The subscribers to the stock do not seem to be anxious concerning the matter, nor to be making excited inquiries in regard to their savings.
